

IWHH9050CC

90CM 5 ZONE BUILT-IN INDUCTION HOB

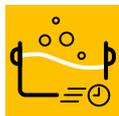

FEATURES & BENEFITS

INDUCTION TECHNOLOGY

Induction technology heats the pan, not the hob, reducing energy dispersion as well as achieving faster and energy-efficient cooking.

BOOSTER

Thanks to the Booster function which the cooking zones of the hob are equipped with, boiling times are significantly reduced.

FLEXICOOK

Flexibility and performance. FlexiCook provides 2 flexible cooking spaces to accommodate pots and pans of any size.

STOP & GO

Suspend the cooking process if you're interrupted then re-start again at the same temperature in an instant with the Stop & Go function.

BLACK CERAMIC GLASS

A completely smooth cooking surface makes the cooktop extremely easy to clean with just a wipe.

CHILD LOCK

Featuring a Child Lock function to prevent toddlers and children from accidentally using the hob.

SLIDER CONTROL

Power is easy to adjust using a slider, the light around buttons immediately showing which zones are switched on, offering clear feedback on the cooking process.
