60cm MULTIFUNCTION HYDROLYTIC OVEN

FEATURES & BENEFITS

COOK 3

Allows 3 different dishes to be cooked simultaneously on different levels, thanks to a special airflow that prevents aromas and flavours from mixing - saving time and energy.

TURBO GRILL

Fan grilling technology that cooks quickly and more evenly with a boost of hot air surrounding the grill zone. This feature has been designed to create a spit roast effect, so even thicker pieces of meat are crisp on the outside and tender on the inside.

FAN FORCED AIR SYSTEM

A quick and easy cooking method that doesn't require pre-heating. The fan distributes hot air evenly to all parts of the oven and even allows you to cook different foods simultaneously without mixing taste or smell.

SMART CLEAN

Innovative SmartClean technology cleans the oven thoroughly and efficiently, leaving no odours and without requiring a detergent. SmartClean technology works together with an easy-to clean special enamel and offers a dedicated cycle that always delivers perfect cleaning results.

WARRANTY

5 Years on parts and labour.
